

„Marcowa pogoda”

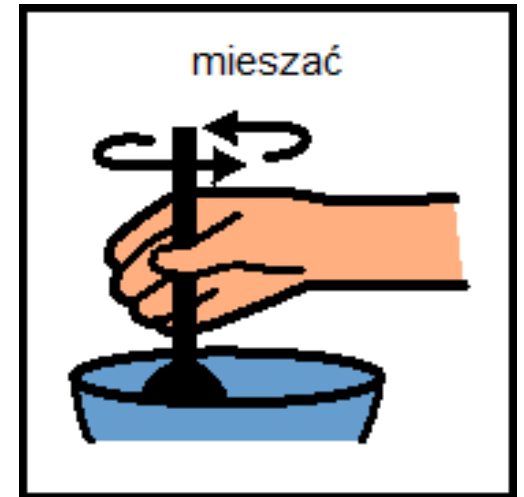

Na podstawie tekstu B.Forma „Kaprysy marcowe”

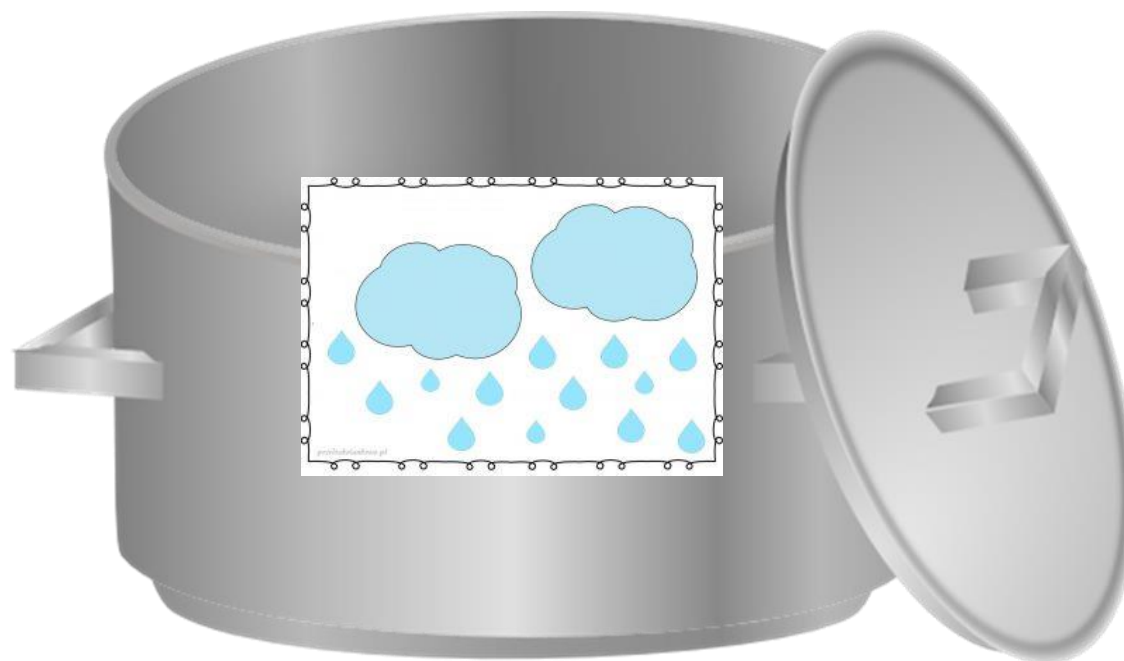

Opracowanie: Ewa Targońska

Wymieszat miesiąc marzec pogodę w garze.

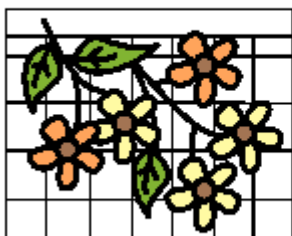

Ja wam tu zaraz wszystkim pokażę.

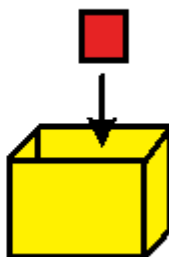

Do gara włożę troszeczkę DESZCZU,

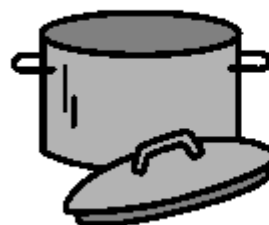

marzec

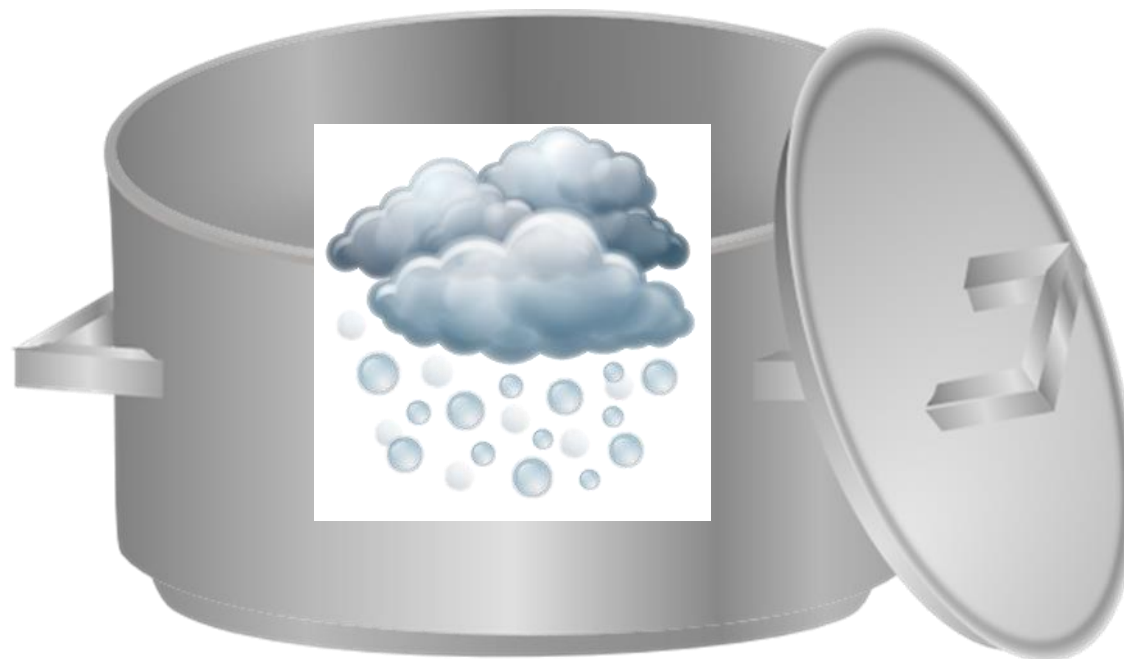

włożył do

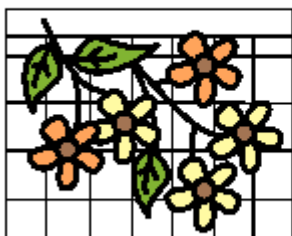

garnka

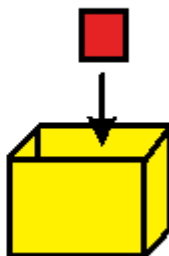

dodam też GRADU

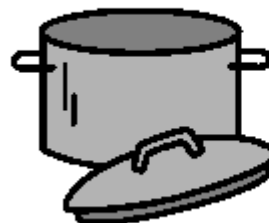

marzec

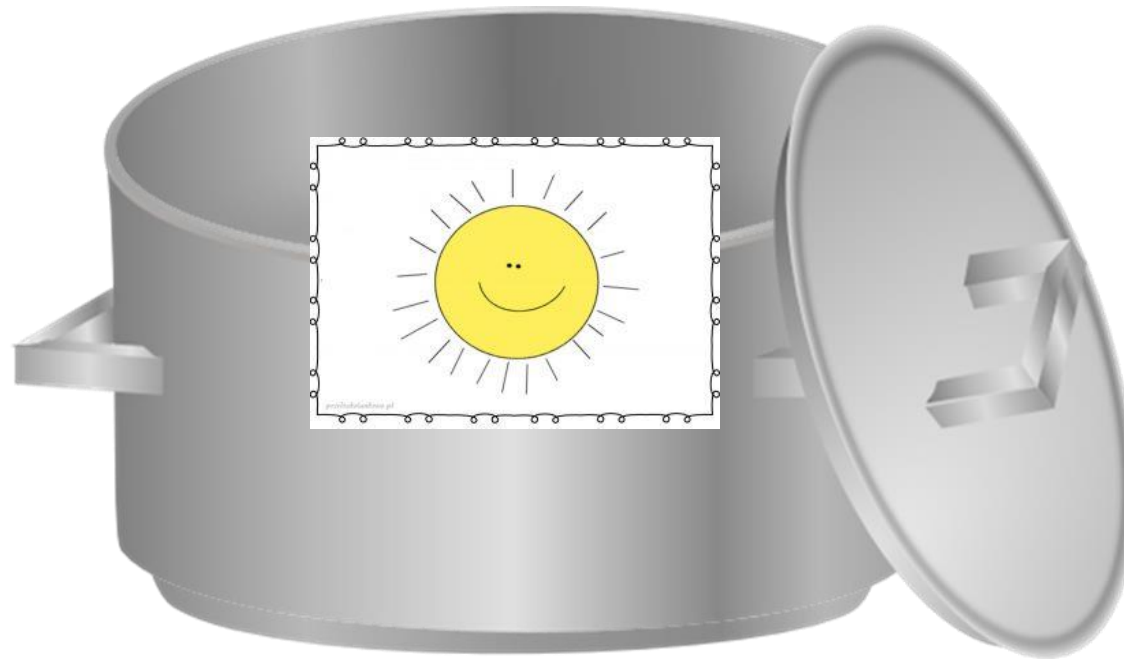

włożył do

garnka

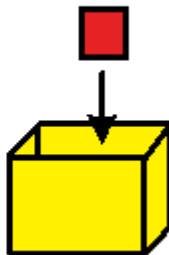

i SŁOŃCA promieni.

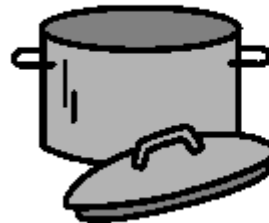

marzec

włożył do

garnka

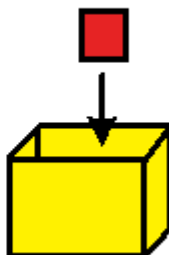

Domieszam powiew WIATRU ciepłego.

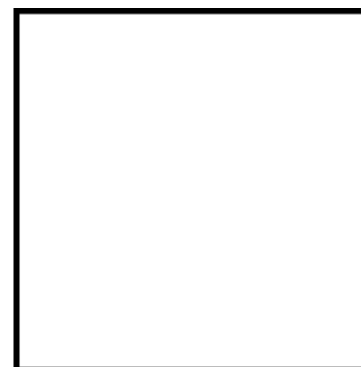

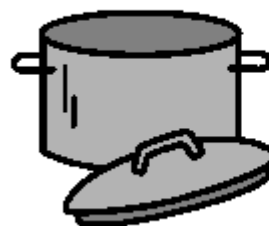

marzec

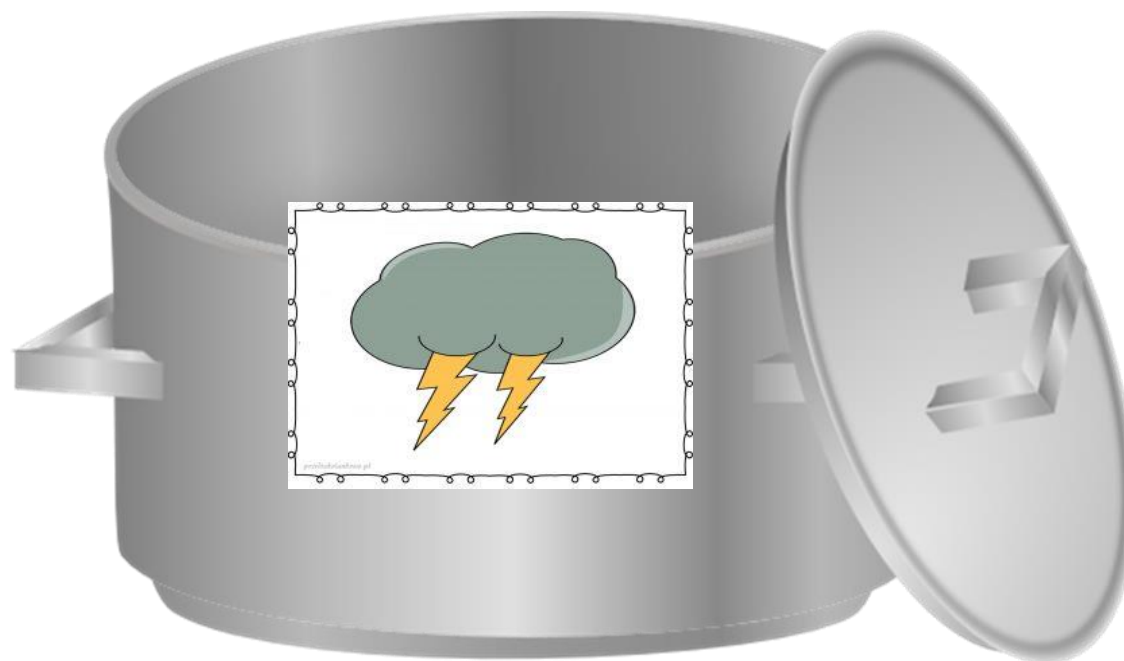

włożył do

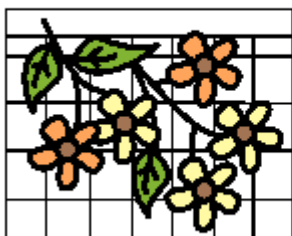

garnka

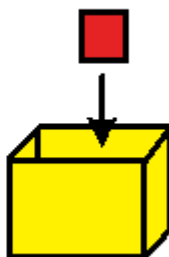

dorzucę BURZĘ

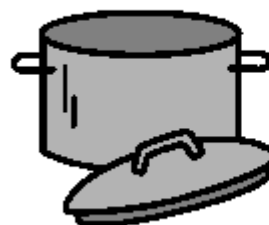

marzec

włożył do

garnka

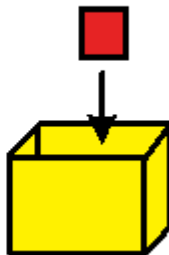

i ŚNIEGU białego.

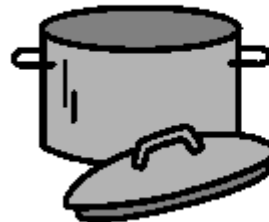

marzec

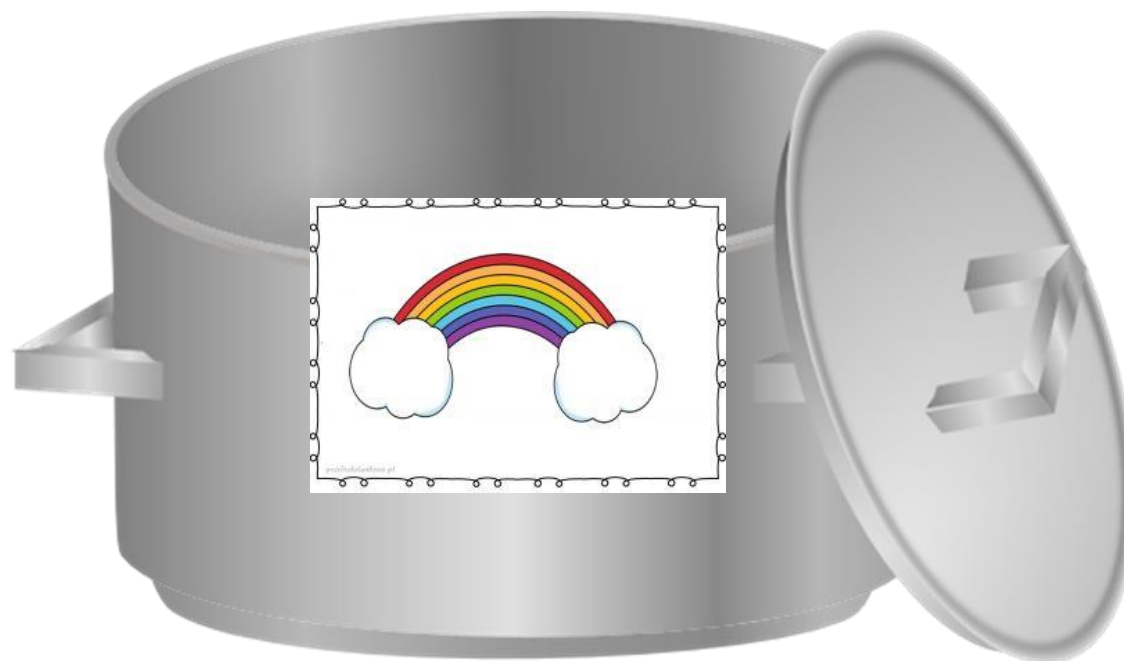

włożył do

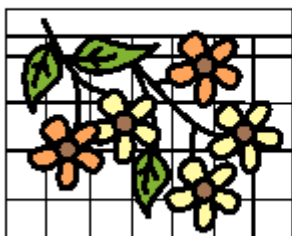

garnka

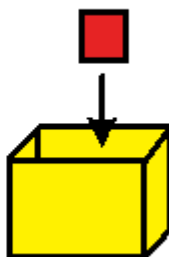

Na koniec dodam TĘCZĘ kolorową

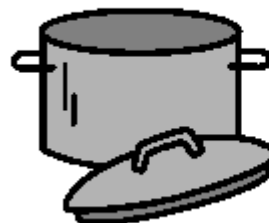

marzec

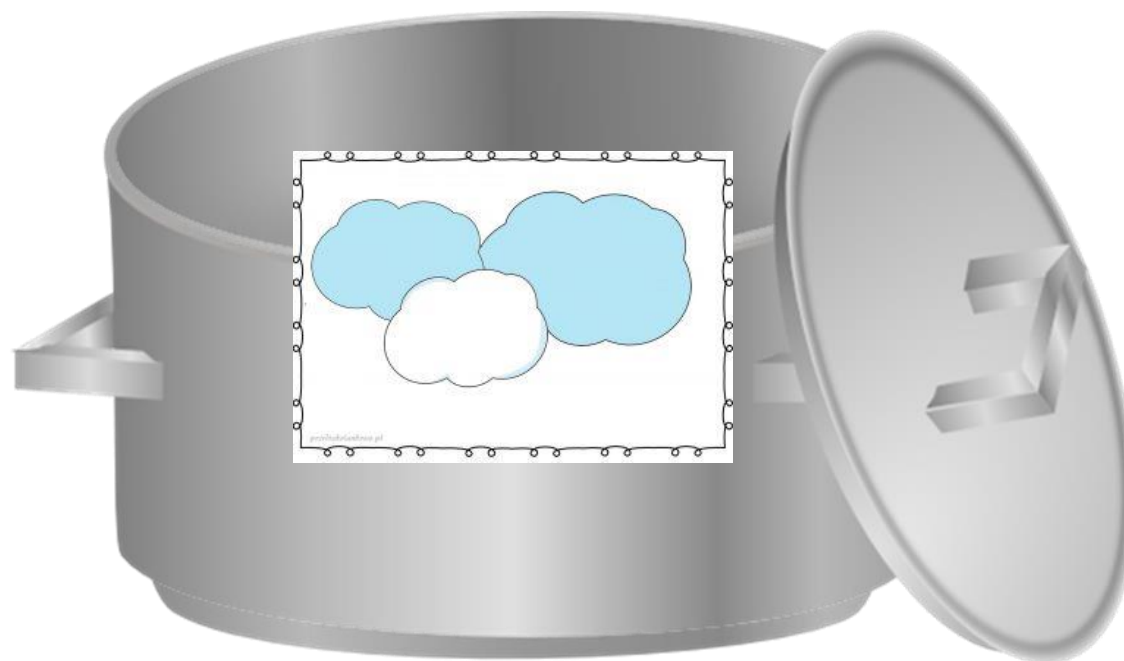

włożył do

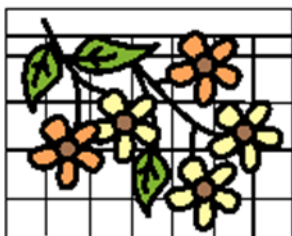

garnka

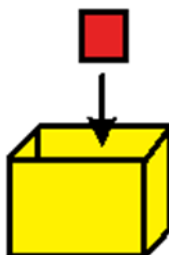

Doprawię wszystko CHMURĄ pierzastą

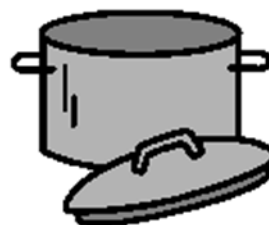

marzec

włożył do

garnka

I tak powstanie w garze marcowa pogoda!

KONIEC 😊

słońce

deszcz

śnieg

grad

tęcza

wiatr

burza

chmura
